Skills

- **Languages:** Java, Python, C++, PHP
- **Technologies:** JavaScript, React, Node.js, HTML, Tailwind CSS, CSS
- **Tools/Platforms:** MySQL, MongoDB, XAMPP, phpMyAdmin, Git, GitHub, Postman
- **Expertise:** DSA, Responsive Web Design, Scripting
- **Soft Skills:** Creativity, Communication, Attention to detail, Leadership, Problem-Solving

Projects

- **Project Cost & Timeline Predictor | GitHub | Live** Nov '25
  - Built a full-stack MERN application to predict project cost and delivery timeline using a trained ML model.
  - Integrated a Python-based machine learning service with Node.js backend via REST APIs for real-time predictions.
  - Implemented secure authentication and user-specific prediction history storage using MongoDB.
  - **Tech:** React, Node.js, Express, MongoDB, Python (scikit-learn)
- **File Management System | GitHub** Sep '25
  - Authored a web-based File Management System using HTML, CSS, JavaScript and PHP to 100+ file uploads, previews, deletions, and recovery in a single interface.
  - Engineered resilient PHP backend module featuring database-backed storage and rigorous server-side validation bolstering data integrity and streamlining file metadata management.
  - Manufactured a user-friendly dark mode interface utilising Tailwind CSS and JavaScript delivering reduction in page load time and enhanced user satisfaction based on internal testing feedback.
  - **Tech:** HTML, CSS (Tailwind CSS), JavaScript, PHP, SQL
- **Last Mile Route Planning System | GitHub** Apr '25
  - Prepared a Last Mile Route Planning System using HTML, CSS, JavaScript and PHP to optimise delivery routes for local distribution centres.
  - Designed and created responsive front-end interfaces in HTML/CSS and interactive maps with JavaScript to visualise real-time delivery paths.
  - Programmed and maintained backend modules in PHP for user authentication, package management and route data storage.
  - **Tech:** PHP, JavaScript, CSS (Tailwind CSS), HTML

Training

Splen Technologies & Education Pvt. Ltd | Certificate Jun '25 - Jul '25

Fundamentals of Data Structures and Algorithms in Java

- Learned and implemented core data structures in Java, including arrays, linked lists, stacks, queues, trees, graphs and hash tables.
- Applied algorithmic techniques such as recursion, dynamic programming, backtracking and greedy methods to solve optimisation-based problems.
- Developed efficient Java solutions using OOP principles and the Java Collections Framework to improve performance and reduce time–space complexity.

Certificates

- Master Generative Ai & Generative Ai Tools | *Udemy* Nov '25
- The Bits and Bytes of Computer Networking | *Coursera* Aug '25
- AI Agent With MongoDB | *MongoDB* Jun '25
- RAG With MongoDB | *MongoDB* Jun '25
- Cloud Computing – NPTEL | *NPTEL* Aug '24
- ChatGPT-4 Prompt Engineering | *Infosys Springboard* Nov '24

Co-Curricular Activities

- **National Cadet Corps (NCC) Cadet**
  - Completed 3 years in the NCC Army Wing with B & C Certificates, demonstrating strong discipline and leadership.
  - Attended 2+ CATC camps, gaining hands-on training in drills, weapon basics, map reading, and field activities.
  - Participated in 10+ community service events, strengthening teamwork, communication, and responsibility.

Education

- **Lovely Professional University** Punjab, India
  Bachelor of Technology - Computer Science and Engineering; **CGPA: 7.52** Since Aug '23
- **Army Public School** Punjab, India
  Intermediate; **Percentage: 65%** Apr '21 - Mar '23
- **Army Public School** Punjab, India
  Matriculation; **Percentage: 93%** Mar '20 - Apr '21
